- Teamwork
- Adaptability
- Problem-Solving Skills

Professional Experience

2024

CC Computer Club

- Developed a web project using Vite, React, JavaScript, CSS, and Node.js. Responsible for designing the "Info" page in Figma and implementing it in code. Created as part of the CC Computer Club.
  - **Github**
  - **Figma**

2025

Rush Project intra 42 Bangkok

- Developed a portfolio website using HTML, CSS, and JavaScript, deployed on Netlify. Created as part of the Fun with Coding summer course under GenEd.
  - **Github**
  - **Link**

Portfolio Web page

- Developed a portfolio website using Next.js, tailwind, and TypeScript, deployed on Vercel. Initiated this project out of my strong interest in web development, with the goal of creating my own portfolio website after gaining hands-on experience from 42Bangkok.
  - **Github**
  - **Link**

PROJECT Room Booking System

- Developed a web projetct using MERN Stack. Created as part of the Software Development Process course course (3rd year).
  - **Github**
  - **Link**

INTERESTING SIDE

- Full Stack Website
- Back-end Development
- Web Development
- Fron-end Development
